

Is this right for you?

This portfolio would potentially be suitable for someone looking for the potential of long-term returns and provide medium-high growth on top whilst being happy with moderate-high short-to-medium-term volatility in the returns. The investor would need to accept the potential for capital loss.

Investment Approach

The portfolio utilises a core-satellite approach investing 80-90% of the funds into low-cost passive funds with the remaining 10-20% in active investments for real estate and alternative positions.

Our approach to managing the passive element of the portfolio is to make asset allocation decisions dependent on the global economic outlook. Our investment mandate provides the flexibility to go 10% over/under the MSCI PIMFA benchmark asset allocation weightings we measure our performance against.

The MSCI PIMFA benchmarks series consists of five composite indices designed to represent the weightings and show returns of selected multi-asset-class strategies, determined by the PIMFA Private Investor Indices Committee, the MSCI PIMFA Growth benchmark aims to represent an investment strategy of a client seeking an approach focused on capital growth in their portfolio.

Asset Allocation

UK Equities	17.5%	Inflation-linked bonds	0.0%
International Equities	60.0%	Cash	2.5%
Government bonds	2.5%	Real Estate	2.5%
Corporate bonds	7.5%	Alternative	7.5%

Portfolio rating

The risk rating of a portfolio is determined on the asset types it invests in.

Equities are typically higher risk yet typically provide a higher return. While bonds are typically lower risk though providing a lower return over the long term.

Please note: that asset allocations and returns provided in this document are valid as of 31st March 2026.

5Yr cumulative performance

■ A - Daintree WM discretionary Growth portfolio 05/03/2026 TR in GB [51.61%]

31/03/2021 - 31/03/2026 Data from FE fundinfo2026

Discrete performance

Time period	Portfolio Total returns
31/03/2025 – 31/03/2026	+15.27%
31/03/2024 – 31/03/2025	+5.67%
31/03/2023 – 31/03/2024	+14.42%
31/03/2022 – 31/03/2023	-1.27%
31/03/2021 – 31/03/2022	+10.18%

The returns in the above graph and table are simulated historical returns based on the asset allocation and weighting of the Daintree Wealth Management Core Growth portfolio against the ARC Sterling Equity Risk PCI Benchmark from 31st March 2021 to 31st March 2026.

The above table provides discrete yearly performance in one-year blocks from the 31st March 2021.

As they are based on benchmark returns, they are therefore exclusive of charges.

This data is valid as of the 31st March 2026.

Risk warnings: Past performance is not a guide to future performance. The value of investments any income is not guaranteed and can go down as well as up and may be affected by exchange rate fluctuations. This means that an investor may not get back the amount invested.
